**Requirements:** *The applicant must be bonded and must provide a certified route survey.*

**Bond Requirement:**

Any entity wishing to transport overweight and/or oversized loads on streets owned by the City of Boston must have a surety bond on file with the Dept of Public Works. The bond must be on the bond stationary provided by the City and be endorsed by an insurance company. If you have questions about this bonding requirement please call us at (877) 397-3764.

Do you currently have a valid bond on file with Boston DPW?  YES  NO

**If YES,** provide exact name of the company that is bonded:

**The Route Survey Requirement:**

You must provide a certified route survey. The City of Boston will not even consider issuing an oversize or overweight permit without a completed survey. The survey submitted should only include Boston street names, not streets from the neighboring cities or state highways.

Do you have a certified route survey?  YES  NO

**If NO**, we will make the survey arrangements on your behalf. It typically takes 1-2 business days to get a completed survey. The survey fee is an additional \$150 to \$400 depending on complexity and weight/dimension. (We do NOT actually do the survey ourselves; the survey will be provided a third-party survey provider.)
